## Course Reserves

## What are Course Reserves?

Reserves are course-related materials that UH Manoa faculty members have placed aside in the library for their students to use. This can include books, textbooks, videos, DVDs, CDs, copies of journal articles, notes or copies of exams. The items can be checked out for a limited amount of time so that all students are given the chance to access the materials. All items are taken off reserve once the semester ends.

## Where are Course Reserves Kept?

All physical copies of course reserves at UH Manoa are held in the Wong Audiovisual Center on the third floor of Sinclair Library. Reserves cannot be placed on hold through the library catalog and are checked out on a first-come, first-serve basis. You will not be able to check out course reserves if you have more than \$10 in library fines. Please click [here](#) to view the Wong AVC's business hours. Electronic reserves are available for students to view through the [library catalog](#). A valid UH username and password is required to view online reserves.

What is a Streaming Video?

If you have ever used Netflix or Hulu before, then you are probably already familiar with the concept of streaming videos. Streaming allows for people to access films through an internet connected device without having to download the film. Currently we have over 4,200 films available streaming! This includes documentaries, archival footage and even feature films.

In order to keep up with current technology, Sinclair Library has been working to convert films from obsolete formats (such as VHS tapes) into digital formats. We also have off-air programing that we have permission to stream from the original copyright holders as well for you to view. Please see our [Frequently Asked Questions](#) section for more information about Sinclair Streaming.
